

OPENSKY™
in the Home

Unleash the Power of the Web

You want broadband Internet, fast downloading of software or audio and video files ...
anytime, and everywhere in your region ...
you want to listen to the radio on your computer or watch IP-TV channels?
Your telephone line Internet connection just isn't enough but OPENSKY™ can do it all,
in the blink of an eye.

What is OPENSKY™ ?

Developed by Eutelsat, Europe's leading satellite operator, OPENSKY™ provides you with **ultra-fast web surfing and downloading**. This turns surfing the web into a **real broadband experience**. But there's more, OPENSKY™ also brings you the latest in **Multimedia channels** for Sports, News, Entertainment, Music and Education, direct to your PC !

What OPENSKY™ can do for you

OPENSKY™ turns your PC (equipped with your Internet connection) into the **ultimate home entertainment system** with:

>Fast Internet access and surfing

OPENSKY™ Fast Internet accelerates your existing Internet connection and provides you with high-speed access. Once connected to OPENSKY™ you can receive web pages, software and download files via satellite at speeds of up to 1.5 Mbps.

At this speed web surfing is fun, and downloading software, music, video or photos so quick and easy. No more endless waiting for file downloads to complete.

>Multimedia channels

With OPENSKY™ you can receive the latest in Multimedia channels with Sports, News, Entertainment, Music, Cultural and Educational video and audio programs direct on your PC. You can even do this when you're not on-line. You can continue listening and watching even when disconnected. Multimedia channels are available on a free, pay-per-view, or subscription basis.

How does it work?

Step 1:

log on to your regular Internet Service Provider

Step 2:

sign in on the OPENSKY™ Sat Login page

Step 3:

you now have a broadband connection to the Internet

What do you need?

All you need for OPENSKY™ is a PC (preferably Pentium III or higher) and a standard Internet connection via modem or ISDN. Once connected to the OPENSKY™ satellite dish and USB-box (or DVB-IP card), your system is upgraded into a broadband and multimedia system.

You will need the following equipment to receive and operate OPENSKY™ :

PC
Internet connection
via PSTN or ISDN

Satellite dish pointed at satellite
W3 at 7 degrees East
or AB2 at 8 degrees West

USB-DVB box
or DVB-IP card

Coverage is provided via 2 satellites:
W3 at 7 degrees East and ATLANTIC BIRD™2 at 8 degrees West

Where can I get OPENSKY™ ?

OPENSKY™ is available via a network of Distributors throughout Europe.
Visit our website www.eutelsat.net to obtain a list of resellers in your area.

Contact information:

OPENSKY™ : the right choice for you

You		OPENSKY™
You have a PC and existing Internet connection via telephone or ISDN	✓	OPENSKY™ is combined with your existing telephone Internet connection to form a “hybrid” system. OPENSKY™ provides you with extra speed where you need it most- into your PC.
You live in an area where terrestrial broadband access to the web is not available or too expensive	✓	OPENSKY™ can be used anywhere within the coverage area of the satellite. This means almost anywhere in Europe and the Mediterranean area, now.
You want to keep your current Internet Service Provider, web-site and e-mail address	✓	OPENSKY™ increases the speed towards your PC, nothing else changes.
You want faster web surfing (surfing should be fun!)	✓	OPENSKY™ provides speeds up to 1,5 Mbps that are well into the “fun” area. Web surfing as fast as it gets, and downloads in the blink of an eye.
You want to download software, games, audio, video or photo material and you don't want to have to wait forever for it		
You want to experience the full multimedia capacity of your PC	✓	OPENSKY™ works with all major multimedia (MPEG4) and IP protocols to provide you with the latest multimedia channels.
You want to watch on-line video channels or to listen to on-line radio stations from around the world		OPENSKY™ allows you to listen to or watch multimedia channels independent of your telephone connection to the Internet.
You want worry-free installation of OPENSKY™ equipment	✓	OPENSKY™ can direct you to one of our Distributors or Installers in Europe and the Mediterranean area ready to support you with the installation of the OPENSKY™ dish and USB box.
